OEM/ODM/OBM **Service**

We are different !!

BK Beauty goes beyond the OEM (original equipment manufacturing) business and sells the products of customers who order product of OEM together through our global distribution network.

We offer customers a number of solutions from various research centers and factories desired by customers through collaboration with manufacturing companies and research centers in Korea, South-east Asia and Europe. You can trade our excellent products from various companies at low prices.

OBM + Brand Sharing Marketing

We produce products with various brand registration for clients.
We provide one-stop service in marketing and sales.

CONSULTING

Consultation

Listen to the BK's client's needs carefully, understand what the client needs now and give the best offer.

Planning

Identify technologies, legal affairs and processes to improve the client's product line.

Support

Give support for scientific, technical, regulatory, economic and legal affairs as well as in marketing and communication.

Sales

At the same time as marketing for the client's product, sales preparation and support through the sales channel desired by the client

A gel-type capsule essence with highly concentrated water-soluble moisturizing ingredients that delivers brilliantly clear skin changes.

- Powerful moisture-filling effect of bubble capsules felt with one use-Rich moisture feeling of water gel + Silky finish with capsule content-Moisture moisturizing power improved with high content of water-soluble moisturizing ingredients
- Moisturizing visual of capsules popping on the back of the hand-Visual upgrade by applying capsules to transparent gel type

Over 95% natural oil containing rich vitamins and minerals for radiance and moisture at the same time!

- Shimmer oil serum that expresses a deeper base with natural oils and stabilized fine pearls-Gives a radiance effect with a fine shimmer that scatters light from multiple angles-More than 95% natural oils provide radiance and moisture at the same time
- Waterproof boosting to increase the lasting power of base makeup-Hydrophobic polymer applied, waterproof boosting effect of makeup products-A type that absorbs quickly without stickiness and proceeds to the next stage of makeup without burden!

자연유래 순수한 성분의 코스메슈티컬로 K-뷰티 새로 이끈다! 전문성과 정직함, 신뢰로 이뤄진 뷰티 기업

중국 현지에 15호점의 스킨케어 전문 프랜차이즈 브랜드를 운영하며 10만 명이 넘는 고객들의 건강한 피부를 지키고 있는 (주)비케이뷰티(대표 이진혁)는 탄탄한 연구기반을 바탕으로 코스메슈티컬 시장에 진출했다. '한국에서 찾는 자연유래 성분으로 아름다움을 담아낸다'는 사명으로 차별화한 원료와 컨셉의 고기능성 화장품을 선보이고 있다.

건강하고 아름다운 피부를 위해 탄생한 고기능성 스킨케어

비케이뷰티는 에스테틱 프랜차이즈 사업을 영위하며 비케이에스테틱 브랜드의 해외 시장 안착을 성공적으로 이끌고 있다. 이진혁 대표는 스킨케어 전문 프로그램을 개발해 현지에 대한 철저한 시장 분석과 사업 전략을 내세워 K-뷰티의 위상을 알리는 데 힘써 왔다. 비케이뷰티는 나이와 성별을 불문하고 다양한 연령대에서 나타나는 피부 문제를 연구하고, 그에 맞는 최상의 솔루션을 제공하기 위해 고기능성 화장품 사업에 착수했다. 비케이뷰티의 전문가와 한국 콜마, 중국 상해중의대 등과 협력하여 출시한 비케이 컨투어 오일 드롭 에센스는 자연유래 순수하고 깨끗한 성분만 담은 기능성 스킨케어 제품이다. 자연유래 성분과 EWG 그린등급의 안심 성분을 사용해 편안한 사용감을 느낄 수 있다. 피부에 흡수되어 위험을 줄 수 있는 황산염, 파라벤, 페녹시에탄올, 설페이트 등의 유해 성분을 배제했다. 식약처로부터 주름, 미백 이중 기능성을 인증받은 성분을 사용해 피부 장벽 기능을 개선하고 피부 재생을 촉진시켜 생기고 건강한 피부를 만드는 데 도움을 준다. 토너와 세럼, 에센스 등의 기초 제품을 각각 사용할 필요 없이 올인원 타입으로 사용할 수 있다는 게 특징이다. 이 대표는 "올인원 제품이기 때문에 가격적인 부담을 줄일 수 있다"며 "정제수 대신 수용성 콜라겐을 다량 첨가했다. 농축된 수용성 보습 성분이 포함되어 한 번의 사용으로 버블 캡슐의 강력한 수분 충전 효과를 느낄 수 있다"고 설명했다. 또한, 기존의 스킨케어 제품은 과도한 AHA, BHA 성분으로 피부자극을 유발하기도 한다. AHA성분을 이용한 미백화장품이나 클렌저부

터 마무리크림까지 BHA성분이 들어간 여드름화장품의 경우 지나치게 각질이나 피지를 제거함으로써 피부를 예민하게 만들 수 있기 때문이다. 비케이 컨투어 화장품은 지속적으로 유효성분을 방출하여 기존에 제품을 계속 덧발라주거나 과도한 성분을 피부에 도포했던 불편함을 해결했다. 풍부한 비타민과 무기질이 95% 이상 함유되어 있으며, 자연유래 오일로 광채와 보습을 동시에 잡았다. 끈적임 없이 빠르게 흡수되는 제형으로 베이스메이크업의 지속력을 올려주는 부스팅 효과도 기대할 수 있다. 비케이 컨투어 에디션은 차별화된 원료 기술과 제품력을 인정받아 지난 6월 2021 한국브랜드리더대상 고기능성 화장품 부문 대상을 받았다. 현재 국내 피부과 및 에스테틱에 중점적으로 공급되고 있으며, 해외 판매채널을 확대하고 있다.

탁월한 기술과 철저한 시장 분석으로 글로벌 수출 문 연다

비케이뷰티는 홈케어용 스킨케어 상품, 건강기능식품, 커피 및 식품 등을 국내·외에 공급 및 유통하며 단탄한 인적 네트워크와 확고한 유통망을 구축하고 있다. 비케이 비타에코 건강식품 브랜드를 전개하고, 소아전문 한방제약회사 함소아제약의 건강식품 등을 중등으로 수출하고 있다. 또한, 홈케어용 메조롤러 테라피 프로그램을 통해 마이크로니들(Micro-needle)의 일체형 용기를 사용한 메조시스(Mesosys)를 유통하고 있다. PDRN이 함유된 화장품 내용물을 피부에 도포함과 동시에 마이크로니들에 의해 생성된 미세통로를 통해 피부 깊숙이 흡수시켜주는 고기능성 홈케어 화장품을 중등 GCC의 Sofan그룹에 공급하고 있다. 국내 최대 커피 프랜차이즈 이디야커피의 대리점으로, 이디야비즈니스아메리카노 커피, 이디야스페셜 모카&스페셜골드, 이디야 램(Ediya Lab) 캡슐커피 등을 국내에 유통하는 등 다각화한 사업으로 성장세를 이어가고 있다. 이 대표는 뷰티강국으로써 국내 코스메틱 스킨케어 산업의 기술력을 수출하고, 자사 해외 대형채널에 OEM, ODM, OBM 비즈니스를 통해 화장품과 이너뷰티 상품을 지속적으로 공급하는 데 주력하고 있다. 비케이뷰티 연구소는 신규 제품을 위한 지속적인 기술 개발에도 속도를 늦추지 않고 있다. 이

대표는 "비케이뷰티 연구소에서 지속 개발하는 정직한 제품을 통해 예비 창업자들에게 창업과 판매에 대한 자신감을 줄 수 있는 창업경영센터를 계획하고 있다. 1인이나 소자본으로 창업을 할 수 있도록 해 창업이 두려거나 취업이 힘든 분들에게 비케이 프로그램을 통해 미래 뷰티 인재를 양성할 것이다."라고 전했다. 이진혁 대표의 경영 노하우와 글로벌 네트워크를 기반으로 비케이에스테틱의 회원을 통해 국내 시장과 함께 AEC 국가 진출할 계획이다. 인지도 높은 비케이에스테틱 브랜드의 체계적인 서비스 관리를 통해 소비자 만족도를 높이겠다는 방침이다. 소규모 창업인 만큼 1인 창업가라도 스스로 운영 및 관리하고 홍보까지 할 수 있는 전산개발 및 홈페이지 지원, 교육 등 지속적인 지원을 제공할 예정이다. 최근 비케이뷰티가 해외 바이어들에게 공급하고 있는 상품의 기술력과 효과가 널리 알려지면서 글로벌 기업들의 OEM·ODM(화장품, 건강기능식품) 문의가 이어지고 있다. 이에 맞춰 글로벌 시장 공략에 총력을 기울이고, 대한무역투자진흥공사(KOTRA), 중소벤처기업부, 한국무역협회 등 관계기관과 공동 출연한 연구과제를 통하여 화장품, 건강식품의 글로벌 브랜드 개발에도 나설 예정이다. 이 대표는 "비케이뷰티의 제품을 사랑해주시고 저희를 응원해주시는 파트너 사분들께 깊은 감사의 인사를 전하고 싶다. 고객을 존중하고 차별화된 제품 개발, 정직한 기업이 되도록 더욱 정진할 것이다."라고 포부를 전했다. 천연 소재의 전문화, 차별화가 요구되는 뷰티 산업에서 비케이뷰티만의 기술력을 통해 새로운 시장을 개척해 나갈 것으로 주목받고 있다.

Born through the beliefs and philosophy of GC Pharma
True Derma Cosmetics Brand

BOONJA

Experience the derma cosmetics brand BOONJA, specializing in GC Pharma's NK cell culture medium that appeared as a key to disease treatment that is now a total skin solution.

As a natural killer cell or immune cell in humans, it is a cell that takes up 10~20% of lymphocytes (a type of white blood cell).

It strengthens immunity by obstructing the increase of abnormal cells when they are discovered in the body and stopping the start of cancer. It has the important role of secreting various immunomodulators to maintain the balance of the immune system.

Exosome and cytokine, key materials secreted from the NK cell, accelerate the manifestation of collagen and elastin through signal transduction between skin cells.

BOONJA's key ingredient "NK cell culture medium"

NK cells incubated to treat cancer, and NK cell culture medium made from culture medium in which the NK cells were incubated.

It is a rare ingredient that is only produced twice a year after 7 phases of strict processes, and the NK cell culture medium created after incubating 40 billion NK cells is a key ingredient that lives and breathes in all BOONJA products.

The NK cell culture medium contains 74 skin growth factors that take care of all skin concerns including tightness, wrinkles, brightening, radiance, moisture and calming. NK cell culture medium, improving external skin damage through amazing regeneration and strengthening the skin's power to fight aging so that the skin does not lose its radiance.

Start of Glowing Skin at Another Level NK First 85 Essence

First Essence that contains 80% NK Cell Water, and 5% NK cell culture medium to immediately recover the skin's water-oil balance, calm the skin, and brighten the skin tone

The First Essence, which is the first thing you put on after cleansing, is important because it is the first step of skincare. NK First 85 Essence, containing NK cell culture medium and NK cell water as main ingredients, presents a strong soothing effect on skin that has lost its water-oil balance and immediately calms the skin. It has a moist and watery texture that opens the skin's moisture path and quickly absorbs active components that allow total care of tightness, wrinkles, brightening, radiance and moisture, the power of NK cells, into the skin.

It contains a Water Block Complex that acts as a moisture shield to the skin, locking in the active components supplied to the skin so that they do not evaporate. Using NK First 85 Essence alone quickly calms the skin, supplies the active components deep into the skin, and maintains the good ingredients for a long time.

NK First 85 Essence, showing the clever technology of GC Wellbeing, which has perfectly understood the skincare trend.

BOONJA proudly presents the product as the start of moist and healthy skin and the first step of total anti-aging.

The 3 systems of the NK First 85 Essence including the needs for the First Essence that 'open, fill, and stop'

Step 1: Stabilization of the water-oil balance that was lost after cleansing

The skin loses its water-oil balance after cleansing and is exposed to external irritation. That is why the First Essence is important.

Containing 80% NK Cell Water, it immediately recovers the water-oil balance that was lost after cleansing and calms the skin.

Step 2: Penetration of the active ingredients by opening the skin's moisture path

As a moist and watery essence, the moisture and nutrition of NK Cell Water is quickly transferred deep into the skin and helps the skin become moist and healthy.

Step 3: Locking system that maintains the good ingredients for a long time

It is meaningless if the active components also evaporate. The **Water Block Complex** acts as the skin's shield, covering the skin with a moisture coating and maintains moist skin for a long time.

Remarkable test results shown by NK First 85 Essence*

Hypoallergenic and tested for improvement of the skin tone, skin transparency, and clear skin tone! It presents gentle but effective skincare effects *Global Medical Research Center

High-performance Lifting Ample that Tightens the Skin NK Effect 74 Ample

High-performance lifting ample containing 74 types of skin growth factors in NK cell culture medium and patented ingredients pulling the skin tight that increase skin elasticity

From natural aging due to gravity to aging due to external impacts. Thorough prevention is necessary since aging is caused by so many factors.

We suggest a high-performance lifting ample that accelerates regeneration instead of aging and creates young and firm skin. It is a product containing 12.5% NK cell culture medium, the essence of GC Pharma's technology that acquires only 30KG volume after incubating 40 billion NK cells, that promotes activation of the skin's collagen and elastin to help prevent the skin from losing strength and sagging.

Containing patented raw ingredients Collageneer and Polylift that are effective for skin elasticity, it presents maximized strengthening of skin elasticity and face line lifting. The firm and sticky texture that is like thin collagen wraps and absorbs into the skin and has the effect of lifting the face and smoothening the chin line.

Make your skin young and firm with the NK Effect 74 Ample, the concentration of GC Pharma's technology.

High-performance lifting ample, the essence of GC Pharma's research on 'high-content NK cell culture medium

- ✓ **High-content NK cell culture medium that is only produced twice a year at only a 30KG volume**

Containing a 12.5% high concentration of the NK cell culture medium, it helps the manifestation of the skin's collagen and elastin.

- ✓ **Synergy of patented ingredients that pulls the skin tight**

Containing patented raw ingredients Collageneer (Patent No. EP164848281) and Polylift (Patent No. US730067882) that are effective for skin elasticity, it supplies moisture and nutrition to dry skin.

- ✓ **Thick texture that is smooth and elastic**

As a high-concentration ample that helps saggy skin, it wraps and absorbs into the skin to fill the skin and increase firmness.

Remarkable test results shown by NK Effect 74 Ample*

It is a high-performance ample focused on elasticity that has been tested and confirmed for improvement of face lifting, the jawline, and skin density * Global Medical Research Center

GC Pharma's Amazing Achievement: Remarkable Effects After 1 hour

NK Signature Ample

Skin concerns for women are not limited to one. What's more, modern day people wish for healthy skin that is great anywhere, any time. A focused anti-aging solution that quickly solves complex skin concerns.

We introduce the BOONJA NK Signature Ample, a strong anti-aging ample that creates beautiful and healthy skin like a spa treatment with just one use. Proven of its effects through 14 types of testing for moisture, radiance, wrinkles, tightness and lifting, it is an all-in-one ample that can improve complex skin concerns with just bottle.

It quickly absorbs into the skin through vegetable ingredients that supply moisture and nutrition to the skin, including maca root extract, hydrolyzed avocado protein, and sunflower seed oil, etc., and the patented capsulization technology of the NK cell culture medium.

The thick high-nutrition texture that is desperately needed in the F/W season when skin condition is at a low gives a luxurious finish to the skincare routine. Use the product, which has a texture between a cream and an ample, at the last step of skincare by massaging onto the skin. The thick texture will remain on your face until the next morning, making the skin feel firm and smooth.

Make your skin into perfect glowing skin that looks to have come naturally by using the NK Signature Ample, the fruition of GC Pharma's advanced technology.

- ✓ **8.5% high-content NK cell culture medium that is only produced twice a year at only a 30KG volume**
- ✓ **Vegetable ingredient that manages the skin's moisture and nutrition**

Contains maca root extract, hydrolyzed avocado protein, sunflower seed oil, and white lupine seed extract to charge skin with moisture and nutrition!

- ✓ **Effects proven through 14 different types of testing**

Amazing product that clearly presents through 14 different types of testing.

(Including improvement of external moisture level without makeup after 3 days, skin glow without makeup after 3 days, skin texture, immediate radiance effect, pigmentation, tone, and wrinkles around the eyes, mouth and forehead)

- ✓ **Thick consistency but fast absorption through capsulization technology**

Patented capsulization technology helps the active components quickly absorb into the skin.

BOONJA:

Born through the beliefs and philosophy of GC Pharma that has contributed to the healthy life of humanity for half a century

3-Step NK cell culture medium skincare solution

1. First Essence that is put on the skin after cleansing
A moist and watery essence that opens the skin's moisture path.

The first step of 'moisture locking' that fills in the moisture and prevents evaporation through the formation of a moisture shield by the abundant nutrition and water block complex of the NK cell culture medium!

**It is appropriate for the first step of skincare routine every morning and night.

2. Firm high-concentration texture that feels like thin collagen on the skin

It absorbs right into the skin and presents a strong lifting effect.

** It is appropriate for daily repair and lifting care.

3. Rich high-performance, high-concentration texture ample that produces a strong anti-aging shield on the skin

Use the product, which has a texture between a cream and an ample, at the last step of skincare by massaging onto the skin.

The thick texture will remain on your face until the next morning, making the skin feel firm and smooth.

* It takes care of all skin concerns, including tightness, wrinkles, radiance, moisture and soothing.

MESOSYS

MESOSYS products are exclusively developed by its own R&D department and lab in cooperation with the best dermatological specialists and technical specialists.

MESOSYS microneedle-integrated containers are manufactured in the GMP and CE approved facilities where medical microneedling products are manufactured, which ensures the safety of the products.

MESOSYS cosmetics pursue skin-friendly formulation considering the fact that the ingredients can be penetrated deep into skin through microneedling. MESOSYS chooses safe and effective ingredients for skin. And they are manufactured in the CGMP approved facilities.

MESOSYS

[MICRONEEDLING]

SHAPE OF NEEDLE

The circumferential surface of the drum is configured to form a polygonal cross-section of at least six sides instead of a circular cross section, so that, when pricking the skin with the needles, the contact surface of each needle relative to the skin can be reduced, thus minimizing the pain.

Cross-section

LENGTH OF NEEDLE

The needle length of MESOSYS microneedling system is 0.2 mm which is enough length to create micro-channel through stratum corneum. This micro-channels increase the absorption rate of ingredients and micro wounds stimulate natural collagen induction.

THICKNESS OF NEEDLE

The thickness of MESOSYS microneedling system is 0.2 mm which is the finest needle compared to other rollers. Due to this feature, the pricking sensation is less painful than other rollers.

MATERIAL OF NEEDLE : SUS304(H)

SUS 304 (H) is the most commonly used stainless steel for medical devices.

Boditech Med. has been developing products for in-vitro diagnostics and diagnostic reagents for the past 20 years by pursuing the company value called "Respect for Life". In particular, about 50,000 units of ichroma™ readers are installed and operated world wide, and ichroma™ CRP (C-Reactive Protein) has secured its largest market share in China, showing a unique competitiveness. Boditech Med Inc. is leading the way in exploring new markets through the automation of on-site diagnosed immunodiagnostic devices and the development of new high-sensitive diagnostic reagents. We have built up our reputation successfully by carrying out various national R&D projects based on solid technology, experience, and human resources accumulated over the years.

Re: K121247
Trade/Device Name: ICHROMA IFOB with ICHROMA Reader
Regulation Number: 21 CFR 864.6555
Regulation Name: Occult Blood Test
Regulatory Class: Class II
Product Code: OOK, ISX
Date: April 23, 2014
Received: April 25, 2014

Dear Dr. Park:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Part 800 to 898. In addition, FDA may publish further announcements concerning your device in the [Federal Register](#).

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set

GREEN BEAUTY BY FRUIT ESSENCES

Nature is full of ingredients that are beneficial to our skin. By optimally combining effective ingredients of plants and fruits, the nutrition is delivered to the skin intact.

The 'Russian Wealth' company produces drinks derived from birth chaga. Due to the stringent selection of raw materials and their low-temperature processing, all of the fungus' healing properties are retained. They help to prevent cancer and diabetes, improve the functioning of the gastrointestinal tract, immune and nervous system, and also accelerate a person's recovery from illness.

- 주요 원료: L-아르지닌 4,000mg 함유
- 용량: 280ml [20ml * 14병 / 액상형]
- 맛: 블루베리 / 감초 / 과일 야채 혼합분말
- 가격: 69,000원

- ✓ L-아르지닌 주성분 4,000mg 함유
- ✓ 흡수가 가장 빠른 액상 형태
- ✓ 맛도 건강도 한번에 챙길 수 있는 제품
- ✓ 다양한 부성분 함유: 비타민 C, 셀레늄, 산화이연
- ✓ GMP제조 설비와 FSSC22000 HACCP 인증 보유

오 마이 콜라겐은

콜라겐 생성에 꼭 필요한 필수 성분 함유!

콜라겐

피부 세포들을 서로 떨어지지 않게 연결 탄력 유지에 중요한 역할

엘라스틴

콜라겐 지지하는 역할을 하고 있으며, 부족 시 콜라겐의 연결이 느슨해질 수 있습니다.

히알루론산

피부 속에 수분을 저장, 보습이 필요한 부위에 전달하며, 수분유지에 중요한 역할

세라마이드

피부 장벽을 구성하는 성분으로, 피부 수분 증발을 막고 유해물질을 차단해 트러블 방지

오 마이 아르지닌이 중요한 이유

- ✓ 아르지닌은 조건적 필수 아미노산이며, 인체내에서 합성이 됩니다.
- ✓ 아르지닌은 많은 음식을 섭취한다고 해서 생성되는 것은 아닙니다.
